

REQUIREMENTS FOR WALLER COUNTY UTILITIES INSTALLATION PERMIT

- 1) Complete "Notice of Proposed Installation in Waller County Right-of-Way".
- 2) Submit three (3) sets of plans locating open cut or bore.
- 3) Submit three (3) sets of traffic handling plans, in compliance with the Texas Manual on Uniform Traffic Control Devices. Applications will not be accepted without traffic handling plans.
- 4) Pay a permit fee of \$100. The fee is waived if the work will be performed by a Public Utility franchised to operate in the State of Texas.
- 5) Submit a restoration bond executed by a surety company or surety companies authorized to execute bonds under and in accordance with the laws of the State of Texas. The bond must be made out to Waller County and have a duration of one (1) year. The bond is waived if the work will be performed by a Public Utility franchised to operate in the State of Texas.
 - a. The minimum bond is \$5000 and it will cover 100 linear feet of pavement cut *or* 500 linear feet of cut outside the pavement. Larger projects require a bond amount specific to the project scope.
 - b. For larger projects, submit the permit application without a bond. We will determine the bond amount.

POST-PERMIT REQUIREMENTS:

- 1) The Public Utility or its contractor must notify the County Engineer at (979) 826-7670, forty-eight (48) hours prior to starting construction of the line in order that we may have a representative present.
- 2) An inspection of the line installation is required prior to backfilling the excavation to confirm proper cover depth.
