To Whom It May Concern:

Trileaf Corporation is in the process of completing a NEPA Review at the referenced property. Our client proposes to construct a 251-foot self-support telecommunications tower with an overall height of 261 feet including attachments. The tower and associated equipment are proposed to be located within a 50-foot by 50-foot (2,500 square feet) fenced lease area. A gravel road/turnaround area are proposed to extend from the lease area to Bunting Road. The site is currently a pasture. The antenna will be licensed by the Federal Communications Commission (FCC).

Our investigation includes determining if the site is contained in, on or within the viewshed of a building, site, district, structure or object, significant in American history, architecture, archeology, engineering or culture, that is listed, or eligible for listing on the State or National Registers of Historic Places, or located in or on an Indian Religious Site.

Trileaf is requesting information regarding this tower's potential effect on Historic Properties. All information received will be forwarded to the State Historic Preservation Office (SHPO) as part of the Section 106 review process. *Additionally, this invitation to comment is separate from any local planning/zoning process that may apply to this project.*

If you wish to comment or be considered a consulting party, please respond within thirty (30) days of the date of this letter. If a response is not received within thirty (30) days, it will be assumed that you have no objections to this undertaking. A site topography map and aerial photograph are enclosed for your reference.

Please call me at (410) 853-7128 or email [k.abrams@trileaf.com](mailto:k.abrams@trileaf.com) if you need additional information or have any questions. Thank you for your assistance in this regard.

Sincerely,

---

Kaitlin Abrams  
Assistant Project Manager
