

## Transportation 101: What You Need to Know!

In the past few decades, the Houston-Galveston Regions has surpassed the rest of the nation in growth. From 1990 to 2015 the region grew by 2.6 million people, that equals up to 180 million miles driven daily on our transportation network.

Learn what's next for the 2045 Regional Transportation Plan, a long-range plan that determines spending on regional transportation projects, at one of our upcoming public meetings. We will highlight an expert panel featuring "Transportation 101: What You Need to Know."

The proposed highway, freight, transit, bicycle and pedestrian projects requesting federal funding will be evaluated, ranked, prioritized and released for public review and comment by end of Jan. 2019. After the public review process, the Transportation Policy Council will make the final selection of projects for federal funding commitment.
